by Ramón Esteve

The Ulm lamp stands out for its conical shape, where a transparent envelope contains a translucent conical silhouette that houses the luminaire. The combination of colour, light and transparency is used in a subtle way. This piece uses innovative plastic materials, such as polyethylene, which make it resistant for outdoor use. Despite its large size, Ulm does not dominate the outdoor space thanks to its lightness and transparency, which makes it elegant and presential.

The Marquis table lamp, designed by estudi{H}ac for Vondom, is based on the geometry of folds inspired by folded paper moulds, creating a texture of shiny polycarbonate triangles. The light that passes through these shapes creates a surprising play of shadows and light, projecting textures that evoke pleated fabrics on the surfaces. Marquis is a piece that plays with the interplay of light and geometry to create a captivating visual effect.

Designers

We travel the world until we find the best ambassadors of the Vondom spirit: Fabio Novembre, Stefano Giovannoni, Eugeni Quitllet, Ora-Itto, Ross Lovegrove, Karim Rashid, Javier Mariscal... Renowned designers and architects from all over, it doesn't matter where. What counts is their passion for shapes, culture and the vanguard. They transform each piece of furniture into an exclusively "Vondom" mode of expression. Nothing is random, everything happens for a reason. Just as Ramón Esteve become our artistic director for a very good reason.

Ramón Esteve

Ramón Esteve Cambra is Architect and Designer; arising one facet as a consequence of the other. In 1991, he founded Ramón Esteve Estudio with the premise that architecture is a global discipline. His training as an architect became a transversal vision where Architecture and Design form one single concept, almost inseparable, both generated under the same laws and the same design premises. Its aim is the development of complete environments through a mutual interaction between both disciplines, so design acts on architecture and vice versa and the importance and difficulty of both disciplines are equally acknowledged.

Eugeni Quitllet

Ibiza, Love, Bum-Bum, Africa, Brooklyn,
Wall Street, Mari-sol, Pedrera, Bloom, Manta

The Catalan designer Eugeni Quitllet was born on 17th April 1972 in Ibiza. He graduated from ‘La Llotja’ art school in Barcelona. Through his creative vocabulary he exceeds simple relationships between function and style unveiling innovative objects. Between drawing, sculpture and contemporary archaeology, Quitllet literally reveals silhouettes hidden in the material, extremely visual skeletal objects elegantly master fullness and emptiness often with a touch of humour: the Masters chair combines the 3 contours of legendary seats by Eames, Saarineen and Jacobsen, the K Ray lamp is an organic UFO, a network of veins hol – lowed out of the material which results in an object suspended in a frame, his signature method prevalent naturally in several of the designer ’ s projects: the Shine vases, the Light Air lamp, the O’Clock lamp, without forgetting the O Ring watch, a hole in time in the true sense, best seller of the brand Fossil modernising watchmaking codes. Eugeni Quitllet is a design world freak capable of devouring the whole of our environment in his own way to serve it up to us transformed.

The human team, led by Joaquín Torres and his partner Rafael Llamazares, has been growing throughout the past year ans sums up to more than 60 professionals spread out through different offices Spain , UAE Dubai, Dominican Republic, currently working on projects of different magnitude. “Our working method is based on a detailed analysis of the clients needs and the projects programme: we imagine, project and persuade. “The key to our success is that we stick to the initial idea trough out the whole process.

Estudi{H}ac - JM Ferrero

Vases, Marquis

In 2003, José Manuel Ferrero founded estudi{H}ac to give life to all the ideas that appeared unceasingly in his head and in just 16 years he has turned his design workshop into a national and international reference. The passion he puts into his work is evident from the very beginning. Discreet, cultured, elegant and immensely creative, for Ferrero design is a way of life that keeps the mind fully active in terms of creativity. We could say that the British term “bespoke” is the dogma that governs each of the Valencian businessman’s designs, as he creates pieces and elements tailored to each project.

Javier Mariscal

Sabinas, Noma, Blanca, Mora

Javier Mariscal is, First and foremost, an image creator who develops his work using all kinds of supports and disciplines. Furniture design, painting, sculpture, illustrations, interior design, graphic design, landscaping, gardening and so on are all the object of his professional, vital activity. He has collaborated with companies such as Memphis, Akaba, Bidasoa, BD Ediciones de Diseño, Moroso, Nani Mar quina, Vorwerk, Equipaje, Alessi, Sangetsu, Magis, Cosmic, Amat3, Santa&Cole, Lali que and Phaidon. Mariscal e xpresses himself using a personal language that is complex in its intention and simple in its statements, innocent yet provocative, that he uses to innovate, risk and communicate. He enjoys provoking the eyes that look at his works and creating complicity with them.

Teresa Sapey

Adan, Chrismy, Chemistubes

Studio Teresa Sapey is an architecture and design studio based in Madrid since it was founded in 1990. The team’s guiding force streams from curiosity and energy. In fact, the range of fields approached by this practice is extremely broad: It varies from spaces to displays via furniture, graphics and editorial works. Projects not only stem from feelings, but they are also capable of transmitting these same emotions to their clients and customers. “By working with spaces my aim is to be touching and therefore render emotions palpable: Three-dimensional, even four-dimensional. No matter the feelings is, as far as it is a feeling, I would go for it! I believe that architecture should interpret, build and transmit these inspiringly and usefully.”

- Para proporcionarle un uso duradero y seguro al producto, por favor siga las siguientes instrucciones:
- La exposición continua al Sol, especialmente los colores oscuros, puede provocar lesiones por contacto con la piel. Tenga la precaución de verificar la temperatura de los muebles antes de su uso en horas de sol extremo.
 - Coloque la pieza en una superficie regular y sin pendiente para evitar desplazamientos incontrolados.
 - Manténgala alejada de fuentes de calor excesivas.
